Mission Updates | Praise Reports/Prayer Requests | What's New

## Praise Reports

We went through another bout of sickness in our family. However, we are all well and feeling good. Being "down" reminds us how thankful we are for our general health and all the things God is allowing us to do.

## Prayer Requests

Please pray for a "Timothy" for Keith. Our church is in need of a young man that can come alongside Keith and assist him in ministry as an assistant pastor. Keith would disciple him to disciple others and then they could cover more ground.

## The silver lining can be seen

Very recently I was hit with the fact that God had fulfilled a desire in my life that I had been praying about for a long time. The weird thing is that I don't know exactly when the prayer was answered. However, I know that it was because I no longer have that feeling of waiting. Please don't misunderstand, I am not saying everything is perfect, but I am saying that in my heart, God has put a complete contentment about the thing I was waiting for. To be perfectly honest, I don't totally know exactly what I was waiting for, or what it would look like when my prayer was answered, but I do know that God answered in His perfect timing. I pray that if you are in a season of waiting, that God would sustain you in the waiting and when the time comes for Him to lead you out of it, that You would grab hold of whatever it is that He is giving you, with joy.

We had a rough month of sickness. Everyone in our household was down at one time or another. There was a two-day period where I literally had no voice, not even a whisper. However, soon after that I was back on my feet. Unfortunately, my time of sickness was when my brother, Jason, was visiting. We didn't let the time get

## What's New

- Sara plans to visit us this Summer while she continues to seek God on whether she will join us here full time.
- Please feel free to contact us any time in the following ways:

Keith and Jason helping out in the kitchen at the Bible College

wasted. Jason was able to join us for all the ministries that we are normally a part of on a weekly basis. He was extremely helpful and always had a good attitude. We are super thankful that he was able to take the time off work to spend with us. We love it when people come visit. We even had the unique experience of seeing the “Grunion Run” together. The Grunion Run is a period of three to four consecutive nights, beginning on the nights of the full moons and new moons, spawning occurs after high tides and continues for several hours. This takes place on the California and Baja California coast. Our friend, Jose, told us the schedule and we went out late one night to witness it. There were THOUSANDS of little fish all along the beach that were just lying there. People collect them to sell. We didn't try to catch any, but it would have been very easy to do so. They are pictured in the bottom right hand corner.

The Bible College had their graduation. We helped prepare food for the students and visitors, we did not attend the graduation to instead attend a monthly fellowship night with people from CCPB. At the Bible College Keith was introduced to a young man that is interested in helping out during his Bible College breaks starting next winter. Keith is in need of an assistant pastor, so please pray with us that this young man may be able to fill that position. It is a unique position, because it will have to be like we are, a missionary.

On May 29 at 5:00AM, our friend Bill from the care home we to be with the Lord at 90 years old. We were blessed to have been able to talk and minister to him the last few months of his life. Please pray for his family for comfort.

Thank you for reading our updates. We are so thankful for you and the support you give, whatever that looks like. Love to you all and blessings beyond measure.
